

UK Oil and Gas Trade Mission to Mexico

26th February - 1st March

The DIT Mexico Oil and Gas team has identified sectors with an increasing demand for services, goods and technologies which the UK can supply. This trade mission to Mexico includes a programme of site visits in Mexico City and Ciudad del Carmen where delegates will have the opportunity to meet with prime contractors which are involved in projects in the Gulf of Mexico.

For more information in this trade mission, please contact your preferred trade association officer:
