

# Digitising Project Record Books

Graeme McLaughlin & Dr Hannah Rudman

# Working in collaboration

Trademarks apply

# Working in complex, multi-party supply chains is:

INEFFICIENT  
DIFFERENT  
SYSTEMS

PAPER-BASED  
PROCESSES

Data is overshared  
Records not up-to-date  
Unsearchable

COSTLY

UNSECURE

TIME  
CONSUMING

# SICCAR™

BY WALLET SERVICES

# DLT Project Book

## Trackable shared record

Better accountability, traceability, auditability

## Distributed Ledger Technology Platform SICCAR

TRL5 to 6, data compliance, governance and regulation built

## Simplified project execution

Clear view of current status, risk management, resource management

## Searchable, interrogable information

Manufacture, Assembly, Testing

## Traceable parts, on-demand documentation

Keywords, numbers, tags searchable

## Asset integrity

Better managed, improved sustainability and re-use opportunities, confident decommissioning

Reduced time to populate documents

Human error eliminated
