The Oil and Gas Technology Centre

Small Pools Overview

• Different perspectives
• Different datasets, Licensed and unlicensed
• One objective – deliver the developments
The Oil and Gas Technology Centre

Small Pools Challenges

- Gas Disposal
- Differential pressure
- Low energy reservoirs/Difficult fluids
- Fluid commingling
The Oil and Gas Technology Centre

Small Pools overview

UKCS Small Pools – Hackathon attendees

Hackathon outputs

- Hot Tapping Technologies
- Gas Handling
- Replacing the Umbilical
Our role in delivering the developments

No stranded assets by 2025

Simple, Smart, Effective

• Integrated thinking
• Integrated solutions
• Reduce life cycle costs
• Industry collaboration
